PREPARING FOR THE FUTURE

THE NEW ZEALAND SECURITY CONFERENCE AND EXHIBITION
 Rendezvous Hotel | 71 Mayoral Drive, corner Vincent Street | Auckland | 17-18 AUG 2011

CONFERENCE REGISTRATION

CHRIS TENNANT-BROWN

Chris is an Economist with ASB. His job involves monitoring, analysing and forecasting trends in the NZ economy, financial markets and domestic monetary policy. Chris holds a Bachelor of Commerce, majoring in economics. Chris has previously worked in the funds management industry, for Bankers Trust, BT Funds Management and ASB Group Investments. He likes to call upon a wide range of experiences to help understand the economy. Those experiences include a decade working in retail trade, two years working in the equestrian industry and a family background in farming. He is also a New Zealand representative cyclist.

SHAYNE P. BATES, CCSK, CPP, CHS-V, DABCHS

Shayne is an internationally recognised security executive with experience in the information, physical and homeland security disciplines. He collaborates with stakeholders on a global scale, including clients, colleagues, government and law enforcement agencies and serves as a key strategic business partner to executive teams. While living in NZ previously, Shayne served on the NZSA Board for several years and was the ASIS Chapter Chairman and Regional Vice President. He now chairs the ASIS Information Technology Security Council and is a periodic advisor to the US Security Industry Association. Shayne helped create the business strategy of a cloud-based provider delivering hosted physical security technologies and now leads the security cloud strategy development as a consultant to Microsoft Global Security based in Redmond, Washington. Shayne will articulate the global perspective of security through the eyes of a Fortune 50 Company.

DAVID NIELSEN

David Nielsen has 24 Years experience in the Security Industry – as Safe Technician, Lock Fitter, Alarm Installer, Commercial Masterkey Designer, Small Business Owner, Security Tutor, Security Programme Developer, National Multi Sited Tertiary Education Security Manager and is currently Security & Facilities Risk Manager for Telecom NZ Ltd where he is responsible for Fire and Security Risk mitigation. David is also a current National External Moderator for Security with the ETITO and has recently become only the second person to complete the New Zealand Diploma in Security. David's presentation will cover: 1 – The extent of the damage to the telecommunications network and challenges that Chorus faced keeping the Telecom network up and running. 2 – Meeting demands for telecommunications for civil defence and rescue teams. 3 – The recovery process of stabilising the network and then relocating 1500 staff to temporary/interim sites. 4 – Security's role and challenges in the crisis and the recovery process.

MICHAEL JONES – MC

In 2001 Michael Jones went professional and has worked both as a comedian or MC delivering a wide range of entertainment both here in New Zealand and Australia. Michael is passionate about delivering a performance that brings both humour and high quality. Over the years he has entertained the following companies TVNZ, CB Richard Ellis, ANZ, DHL, Team McMillan BMW, Dominion Breweries, Netball NZ along with many others. He has also performed at the NZ Comedy Festival as well as being the MC at the Australian Legends of Sport Luncheon on the Gold Coast.

DR. MARC SIEGEL

Dr. Marc Siegel is the Commissioner heading the ASIS International Global Standards Initiative. He represents ASIS International at the International Organisation for Standardisation (ISO) and at regional and national standards forums. He works with ASIS International and national standards bodies on five continents to develop international and national risk management, resilience, security, preparedness, and continuity standards as well as provides training on their implementation.

He is a RABQSA International certified Security Management Systems - Business Improvement Lead Auditor, as well as a certified Trainer and Skills Assessor for the ISO 28000 – Security in the Supply Chain Lead Auditor Certification Program.

PLEASE NOTE THIS PROGRAMME IS SUBJECT TO CHANGE. FOR THE LATEST INFORMATION AND TO MAKE BOOKINGS PLEASE VISIT WWW.SECURITY.ORG.NZ/EVENTS/

IAN FUNNELL

Ian Funnell is the General Manager of CodeBlue, who specialise in providing IT managed infrastructure services along with proactive monitoring and support to New Zealand companies and organisations. These services include disaster recovery solutions for businesses of all sizes. At CodeBlue, Ian and his team have developed disaster recovery and 'in the cloud' solutions for mid-sized businesses in New Zealand. These solutions were fully put to the test in the recent Christchurch earthquakes. Ian will give CodeBlue's experience through this disaster as they dealt with the demands from every CodeBlue Christchurch client at the same time as their own office being unusable. What really worked, and how practical is 'the cloud' in running and maintaining New Zealand businesses, are subjects Ian will discuss.

JASON WEIR AND BARRY FOSTER

Jason Weir and Barry Foster will lead this session, using case studies and observations accumulated over 20 years of combined investigation experience. Jason is an associate director at Deloitte and specialises in financial investigations. Barry is an associate director at Deloitte and leads Deloitte's forensic technology team. Barry has completed many forensic investigations involving data for both law enforcement and private sector organisations. Theft and leakage of confidential information is a large, but under-reported problem in New Zealand organisations. The emergence of social networking sites and the much reported Wikileaks provide new and popular means for sharing information – including confidential information – heightening the risk for organisations. This session will examine:

- What are people leaking and stealing?
- How do people steal and leak confidential information?
- What does the emergence of social networking sites mean for your organisation?
- How should you respond?
- What can you do to minimise the risks?

MICHAEL FRAMPTON

Michael Frampton is the Manager of Strategy and Corporate Relations at ETITO. ETITO is the national standards-setting body for the security industry and six other critical infrastructure and service sectors. Michael's portfolio includes organisational strategy and corporate, government and media relations. In addition, he has held responsibility for ETITO's work in the financial services industry. In this capacity, he has led ETITO's participation in a partnership with the Crown to build the training and assessment infrastructure to support the regulation of thousands of financial advisers under the Financial Advisers Act. Michael has an arts degree in politics from the University of Canterbury and he is the final stages of completing an MBA at the University of Reading in the United Kingdom. In the security industry, he is leading ETITO's collaboration with the NZSA on matters relating to preparation for industry regulation.

MICHAEL MORIARTY

Mike Moriarty has worked in the security industry since the late 1990s. He is the Training Manager at FIRST Security Guard Services Ltd, and amongst other responsibilities, he leads in the role of Staff Support. This role came to focus during the recent Earthquake events in Christchurch impacting on his staff.
